

AIA California Council

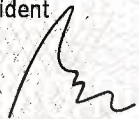

Special Commendation

Presented to:

Michael F. Malinowski, AIA

In recognition of your remarkable contributions as California AIA Regional Director. You are a treasured resource to all, and especially to AIACC staff. On numerous occasions, and frequently with very little notice, you gave freely of your time and your attention helped discern the issues, remove the obstacles, overcome the challenges, and ensure success. You employed these same qualities in representing California on the AIA Board of Directors. Thoughtful and articulate, your enthusiasm in promoting the value of design and the role the AIA can play at all levels, is an inspiration and a reminder to be ever-hopeful as the architectural profession moves forward.
